

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**Docket Number (Optional)
DX0758K1/015631-004801US

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 6,060,284, granted May 9, 2000, and for which a reissue patent is sought on the invention entitled DNA Encoding Interleukin-B30, the specification of which

☒ is attached hereto.

☐ was filed on _____ as reissue application number _____ / _____
and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- ☐ by reason of a defective specification or drawing.
☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

"at least 17 contiguous amino acids" recited in claim 1a) may read on prior art (Takeda et al., 1996, GenBank Accession No. C06368)

All errors which are being corrected in this reissue application up to the time of filing of this declaration arose without any deceptive intention on the part of the applicant.

(REISSUE APPLICATION DECLARATION BY THE INVENTOR, page 2)
